

TCA Profitability Program (TPP) is the trucking industry's premier performance improvement solution.

Compare your numbers to other companies', discuss best practices, and increase your profitability!

YOU choose how involved you want to be with TPP's three-tiered platform:

TPP 1.0 - *Digital Composite Lite*

For \$100 per month, a TCA member receives a snapshot of critical data points from their segment of the industry. Requires little time — you only need to input a small subset of data.

TPP 2.0 - *FastStart*

Full access to the inGauge™ platform. You input your full revenue, expense, and operational lines, and inGauge™ standardizes them, creates an action plan, and provides a full digital composite from your segment of the industry. Price varies based on fleet size.

TPP 3.0 - *Best Practice Groups*

Exclusively for those carriers who are committed to being top performers in the trucking industry. *Best Practice Groups* are the foundation on which the TPP was formed, with six groups and 60 carriers currently active. In addition to full inGauge™ access, take part in bi-annual group meetings where carriers share the ideas that make their businesses successful. Price varies based on group size.

Tier	inGauge™ Access	Peer-to-Peer	Price
1	Snapshot of Critical Data Points	N/A	\$100/month
2	Full digital composite and inGauge™ action plan	N/A	Varies based on fleet size Small Carriers (1-99 PUs) = \$220 Medium Carriers (100-499 PUs) = \$350 Large Carriers (500+ PUs) = \$500
3	Full digital composite and inGauge™ action plan	Bi-annual group meetings and monthly group composites	Varies based on group size 10+ members = \$635/member 9 members = \$690/member 8 members = \$745/member 7 members = \$795/member
